

LIVINGSTON LAND CONSERVANCY

Annual Members Meeting

**June 20 (Wed), 7:00 – 9:00pm
Brighton District Library**

**Featured Presentation:
“Managing Michigan’s Mineral Resources”**

Our speaker will be Mark Sweatman. Mark is Director of the Office of Minerals Management at the Michigan Department of Natural Resources. He also is a Certified Professional Geologist. Did you ever hear of “environmental forensics” or wonder what’s under the surface of our land, and if it’s protected? Mark knows . . . and he will be speaking with us about these and other “hidden gems.”

In addition to Mark’s presentation, a short annual meeting will be held to discuss director election results and the status of the Conservancy.

This annual member meeting is open to all members and to the general public. Light refreshments will be served.
